MPA Networks, Inc. Empowers Companies to Combat COVID-19 with an Innovative Approach Using Microsoft Teams

Leading Technology Provider Educates SMBs on How to Boost Collaboration

SAN MATEO, CA — April 2020 – MPA Networks, Inc., a leading managed technology services provider (MTSP) is empowering business owners to accelerate innovation within their companies through Microsoft’s new software, Teams. Microsoft Teams is a tool that dramatically enhances every employee’s ability to collaborate by integrating the functions of chat, meetings, calls and collaboration into a single platform.

When resources are available in one cloud-based location, downtime is reduced and complexity is lowered, making security and compliance easier.

Price added, “In order to shift your workforce to a more remote environment that new environment must be supported. It demands that several technology solutions get put in place beforehand so that the transition can happen smoothly and maximum efficiency. With minimal investments in time and capital outlay, businesses can keep their businesses running strong no matter what natural disasters, pandemics or economic recessions loom on the horizon.”
